Hist, Fans! They Open Play at 4 O'clock New Time!—Benders Lose One

"Goat" Anderson Gets Into Wheatley. Lineup, But Fails in Pinch.

The games through the week are to be called at 4:15 and on Sundays at 4 o'clock. Manager Smith is of the opinion that by starting the games at this hour it will enable more fans to attend and also will help a number of the business men to see the games. Fort Wayne plays. here today and tomorrow.

By Clem Hagerty.

Before an excellent Sunday crowd, South Bend's baseball club was forced to taste defeat at the hands of Fort Wayne. Charley Wheatley, doing slab duty for the locals, had the visitors on his hip until the fifth, when the balloon went up. It didn't come down until Fort Wayne had been retired in

IN WAR BENEFIT GAME Giants Lead National League and White Sox Are on BROOKLYN, N. Y., July 2 .- The Top in American.

NEW YORK, July 2 .- The pen-Today found the Giants still lead-

the east and west will wind up their

A feature of the coming drive of western National league clubs in the east, and eastern American leaguers Lavender. Rixey and Killifer: in the west, lies in the fact that present league leaders will have the advantage of playing on their home lots. The Giants will remain entrenched at the Polo grounds most of the present month, and if they can increase their present lead over Philadelphia, they will be well prepared for the drive down the home stretch. McGraw's team came through one of the hardest road trips on either big league schedule recently and managed to hold their own which speaks well for their chances

The White Sox took first place from Boston during their last eastern invasion. They have managed to plunge along, keeping a game or two ahead of the Red Sox, and when they return to Comiskey park to spend the month of July, they will have an advantage over the traveling Bostonese which will prove a big factor in the American league race f the White Sox accept it.

The coming intersectional drives will carry the teams practically up to the first of August, and the clubs very liable to be the combatants in he world's series next fall.

WASTE NO FOOD

Food Waste of About 700 Million Dollars

"For partial immediate relief, every individual and community should consider earnestly the matter of food conservation and the limitation of waste. As a Nation we seem to have a disdain of economizing. In many homes there is a strong feeling that it is 'only decent' to provide more food than will be eaten and that it is demeaning to reckon closely. The experts of the Department of Agriculture report to me that the dietary studies made by them point to an annual food waste of about \$700,000,000. Of course, the waste in families of very limited means is slight, but in the families of moderate and ample means the waste is considerable. Even if the estimate were reduced by half, the waste would still be enormous.

"The food waste in the household, the experts assert, results in large measure from bad preparation and bad cooking, from improper care and handling, and, in well-to-do families, from serving an undue number of courses and an over-abundant supply and failing to save and utilize the food not consumed. As an instance of improper handling, it is discovered that in the preparation of potatoes 20 per cent of the edible portion in many cases is discarded."-Secretary of Agriculture, March 3, 1917.

Food is Wasted

(a) When we eat more food than our bodies need for growth and repair and to supply energy for our work. Overeating tends to poor health and fat instead of brawn, makes us sluggish and indolent instead of energetic and resourceful. Fat enough and no more. Eat for physical and mental efficiency.

(b) When food is burned or spoiled in cooking. Improperly prepared or poorly seasoned food will be left on the table and probably wasted. Buy food wisely and then prepare it carefully.

(c) When too much food is prepared for a meal. Unserved portions are apt to be thrown into the garbage pail or allowed to spoil. Many housekeepers do not know how to use left-over foods to make appetizing dishes.

(d) When too much food is served at a meal Uneaten portions are left on the plate and later thrown into the garbage pail. Learn to know the needs of your family, and serve each no more than you think he will want.

(e) When anything edible is allowed to go to the garbage pail or allowed to spoil for lack of proper

(f) When food is handled carelessly. Buy clean food, keep it clean until used, and be neat in all details of cooking and serving. This lessens waste and is a valuable health measure as well.

Feed Your Own Family First

Don't feed high-priced human food to hogs or chickens.

Don't send valuable food to the incinerator or the fertilizer heap. Don't pour into the sewer nourishing food in the shape of milk, skim milk, sweet or sour, soup, gravy, or melted fat, or water in which cereals or vegetables have been cooked. Keep good food out of your garbage pail and kitchen sink.

DEMONSTRATE THRIFT IN YOUR HOME
